

## Question 2

### **"Analyze the Impact of Social Media on Political Mobilization in Contemporary Society"**

Discuss how social media platforms have influenced political mobilization and engagement among citizens in the 21st century. Your analysis should consider both positive and negative aspects, including but not limited to the spread of information, engagement in political discourse, formation of grassroots movements, manipulation and misinformation, and the impact on public opinion and electoral processes. Use specific examples to illustrate your points.
